Safe, Simple, Secure

The S-pac™ is an exclusive Syngenta design. S-pac™ is a registered trademark of Syngenta. Syngenta Crop Protection holds the sole intellectual property and proprietary rights to exclusive features of S-pac™ packaging.

Welcome to

S-pac is the innovative new Syngenta liquid packaging designed to meet the needs of managers of high quality turf, amenity contractors and local authorities. The new S-pac brings greater efficiency, safety, security and environmental protection.

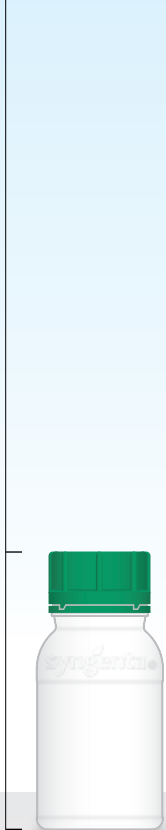

Key innovations

- No foil closure to remove, enabling easy opening and reduced exposure to contaminated material
- New label with Syngenta watermarked logo and Syngenta embossed logo for total assurance that the product is genuine
- A more robust construction without ribs providing safer handling
- An ergonomic design with large handles for better grip
- New knurly caps for easier opening with protective gloves
- Smooth-sided bottles for easy rinsing
- Tamper-evident rings to ensure genuine Syngenta product in the bottle.
- Translucent windows for easier level control and side graduation to show how much product is left. Measures integrated for 1l, 500ml and 250ml bottles.

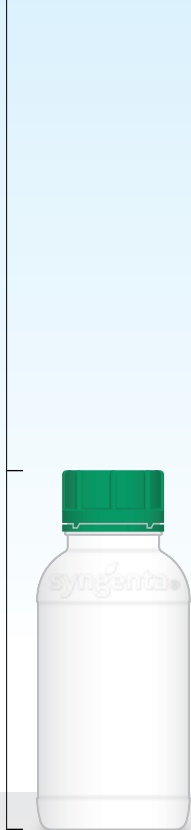

250 ml

130mm x 63Ømm

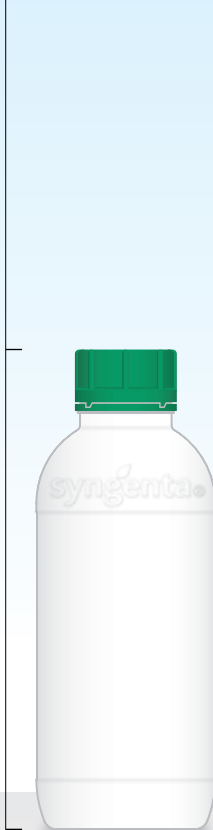

500 ml

170mm x 76Ømm

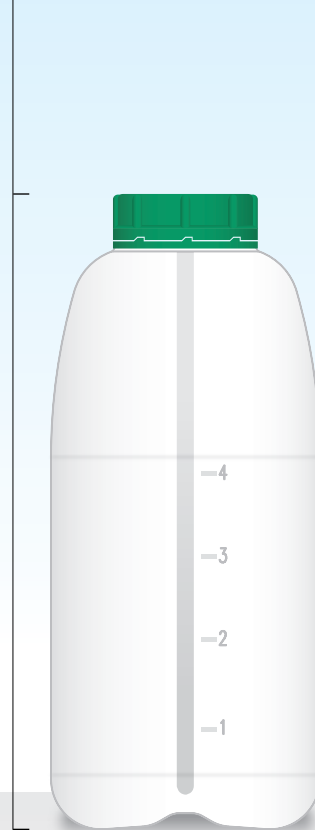

1 litre

231mm x 89Ømm

5 litre

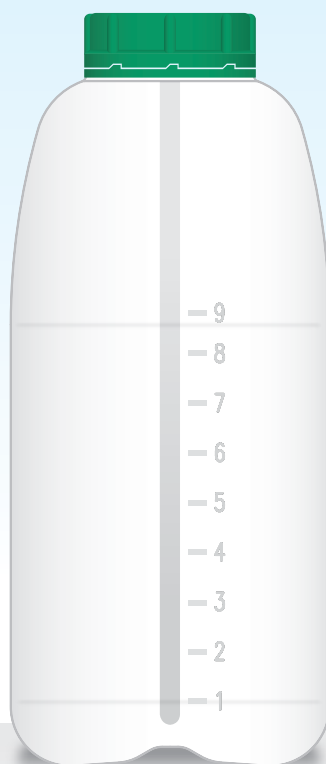

317mm x 190mm x 134mm

10 litre

375mm x 240mm x 179mm

20 litre

389mm x 293mm x 245mm

Knurly caps and ergonomic handles

Smooth-sided easy pour bottle range

No foil seal on S-pac

New rigid S-pac bottles are significantly more robust and easier to handle

Safe

Minimising the risk of exposure or contamination for spray operators and the environment is paramount. The Syngenta S-pac has been designed with a range of features to make bottles safe and easy to use.

fact

“Over half of spray operators have taken off their gloves to remove foil bottle closures”

Survey of Syngenta UK Application Club sprayer operators

“Contaminated foil bottle seals create a high risk of environmental pollution if not separately and safely disposed of.”

Report of the UK Environment Agency water quality protection project

The new S-pac leads on safety:

New S-pac Benefit	Feature	S-pac	Standard packaging
Easy to open and handle wearing gloves and personal protection equipment	<ul style="list-style-type: none">• No foil seal over the bottle opening• Knurly easy grip caps• Large ergonomic handles• Rigid bottles	✓	✗

New S-pac key features

S-pac

3 simple steps - 20 seconds

Standard packaging

Up to 50% longer to open and empty a bottle compared to S-pac

Simple

The S-pac is designed with simple practical features to speed up sprayer filling and operation. Sprayer operators can spray more at the most opportune time to avoid disruption and cover more work in a day.

fact

“ User trials have shown that the new Syngenta S-pac can cut the time taken to open and empty a bottle by up to 50% compared to a conventional foil closure pack.”
Syngenta trials

The new S-pac keeps things simple:

New S-pac Benefit	Feature	S-pac	Standard packaging
Quick to open	<ul style="list-style-type: none">• Knurly easy grip caps open quickly• No foil seal to remove	✓	✗
Easy to pour	<ul style="list-style-type: none">• Smooth-sided bottles pour easily• Anti-glug design• Clear fill level indicator to view product level• Slim line neck	✓	✗
Easily rinsed and drained	<ul style="list-style-type: none">• Rigid bottles rinse out cleanly• Smooth-sided bottles drain freely• No foil seal for separate disposal	✓	✗

Tamper-evident security cap

Secure

Illegal counterfeit turf protection products create potential problems of poor performance, turf damage, failure to meet Health & Safety protocols and increased risks to operators.

The S-pac incorporates a range of distinctive features and covert security measures to assure customers that it is genuine Syngenta product in the can.

New design for simple usage:

New S-pac Benefit	Feature	S-pac	Standard packaging
